

CRAZY
& Co.

FOOD TRUCKS & EVENTS

Quirky vehicles, memorable food and attention-grabbing experiences for corporate events, festivals, weddings and brand activations.

2026 BROCHURE

**WHERE FUN
MEETS FLAVOUR.**

OUR FLEET

Choose your kind of crazy.

From a genuine USA fire truck to polished Airstreams, vintage Citroëns, compact trikes and high-output street-food units, our fleet is built to make an entrance - and keep an event moving.

THE SHOWSTOPPER

ENG9INE Fire Truck

Big, beautiful and impossible to ignore. ENG9INE is a genuine USA fire truck built for the kind of events where ordinary simply will not do.

With substantial cooking capacity, it is designed for festivals, major corporate events and large-scale activations - with all the theatre of a full-size American fire engine.

LARGE-SCALE EVENTS

FESTIVALS

CORPORATE

BIG. BOLD. LOUD.

**A catering unit that
doubles as the event
centrepiece.**

USA

Genuine American fire truck,
complete with air horns and a
Federal Signal Q2B fire siren.

ENG9INE IN ACTION

Built to draw a crowd.

CLASSIC AMERICANA

USA Airstream

Built into classic US Airstream trailers, these polished units can be configured across our mains, desserts and drinks services.

The iconic aluminium exterior gives you instant presence and a clean canvas for custom wraps, corporate launches and brand activations - or a beautiful statement unit for weddings and private events.

Why it works

High visual impact, flexible catering setup and excellent branding potential in one instantly recognisable silhouette.

AIRSTREAM FLEXIBILITY

One shape.
A lot of
possibilities.

GIDDYUP GO

Horse Box

A vintage horse trailer with a deliberately different look to the typical converted horseboxes seen around the UK.

It is a flexible event unit that can be configured for a broad range of catering options, from burgers and chips through to gin, prosecco and desserts.

VERSATILE

RUSTIC

WEDDINGS

CORPORATE

A NAME WITH A STORY

The name "Giddyup Go" came from a Red Sovine country song playing while the team were deciding what to call it.

SMALL VAN. BIG PERSONALITY.

Little Red Citroën

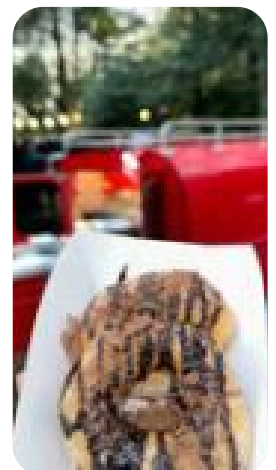

For when you want something a little different, with a touch of French flair. Based on the classic 2CV van, our Little Red Citroën brings Gallic charm in a compact footprint.

It is ideal for smaller services such as doughnuts, coffee - or both - and draws attention wherever it goes.

BUILT FOR ACTIVATIONS

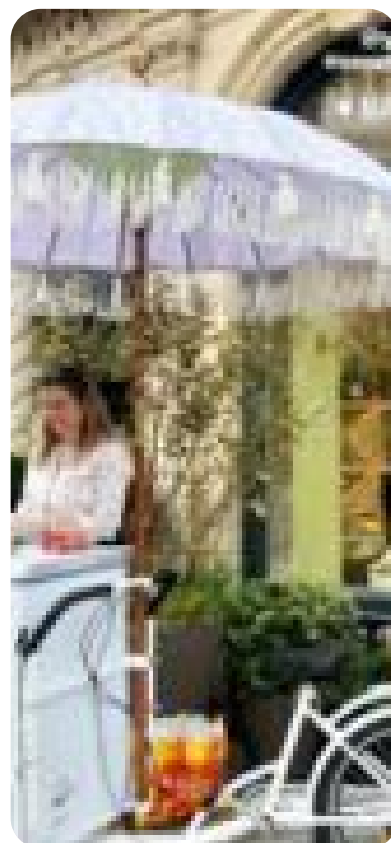

An integrated screen and brandable panels make it especially useful for sales promotions, sampling and brand activation work.

SMALL SPACES. SMART SERVICE.

Trikes & Prams

A brilliant option for venues where footprint matters. These compact units suit ice cream, strawberries & cream, Pimm's and a wide range of desserts and drinks.

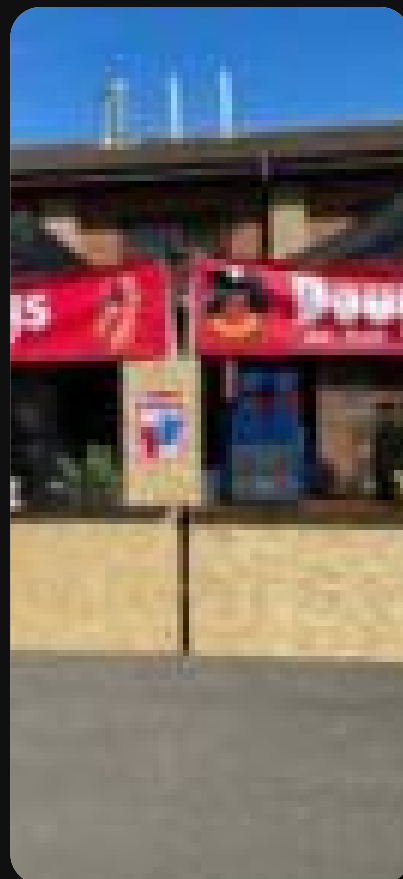

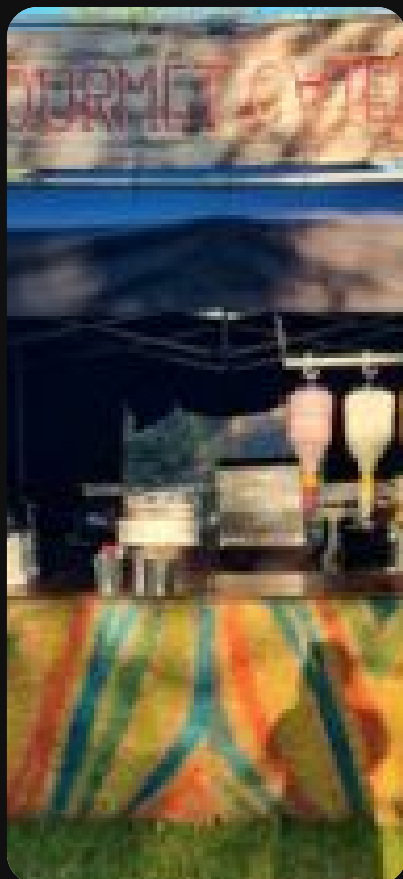

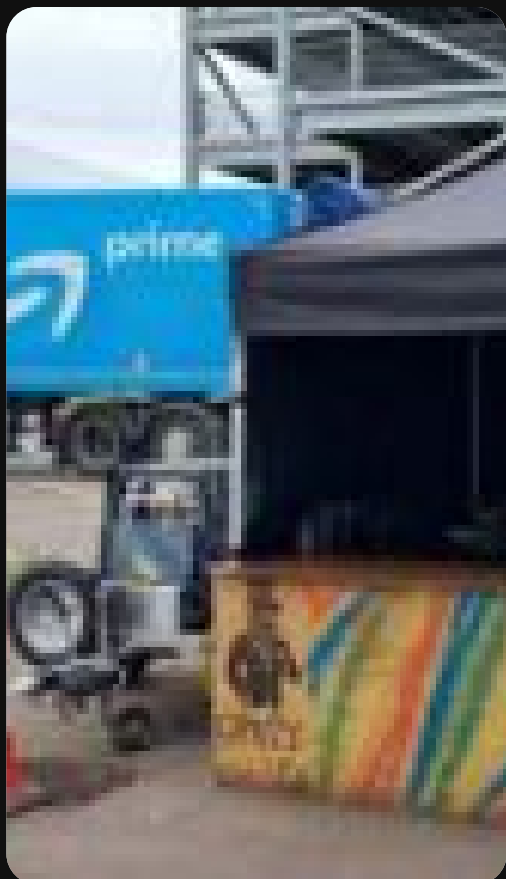

BRANDABLE

The freezer body and parasol create useful branding space for promotional events.

LOW-POWER FRIENDLY

The eutectic plate means many events can be covered without a dedicated electricity supply.

FLEXIBLE STREET-FOOD SETUP

Pop-Up Street Food

Designed especially for outdoor events, our street-food range offers extra space and flexibility for larger service requirements. Interchangeable panels mean the stalls can be themed to suit your brand or event style.

Perfect for British weather, and equally at home serving burgers, desserts, drinks or a mixed event menu.

COOL GALLIC STYLE

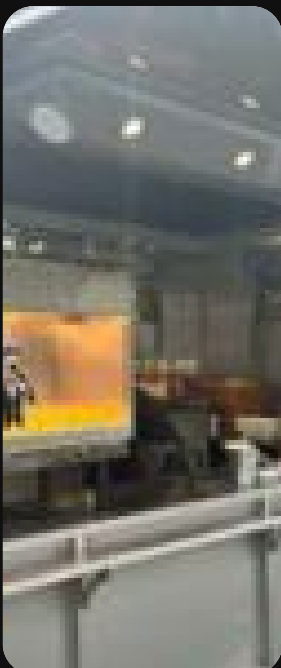

The HY Van

A custom-built replica vintage Citroën HY van that makes a stylish centrepiece for almost any event.

From a gin or prosecco bar to desserts or main-course catering, it brings French flair without compromising on practical service space.

A GREAT CANVAS

A large fold-up top panel plus two optional end panels provide strong branding opportunities for promotional events.

HIGH-CAPACITY DESSERT UNIT

Churros Time

Another custom-built HY van replica, this time fitted with top-of-the-range professional churros equipment from J L Blanco and finished in a bold Spanish-inspired design.

It is designed for high-capacity event requirements where visual impact and fast output matter equally.

HIGH OUTPUT

CHURROS

EVENTS

WHEN THE QUEUE GETS SERIOUS

The Churros Box

Specially designed for busy events that need a high-output churros service. Professional J L Blanco equipment gives the unit the capacity to keep pace with demand.

Like the styling? It can also be used for other services when the event calls for something different.

HIGH OUTPUT

FLEXIBLE USE

THE CHURROS BOX

MAXIMUM ATTENTION

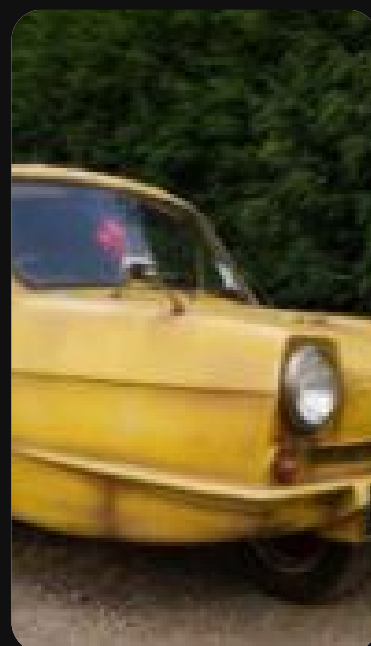

"Uncle Albert"

Our Reliant Regal Supervan Mk. III is one of those units people simply have to photograph.

It can support most dessert and beverage services, and can even handle burgers or dirty fries at smaller events.

It is less suited to a full vehicle wrap, but branded menu boards and pop-up graphics still give plenty of promotional flexibility.

Go on. You know it makes sense.

CORPORATE & PROMOTIONAL

Brand Activations That Actually Activate.

Our quirky vehicles, street-food stalls and carts can be custom branded around your campaign, product or audience.

From new product launches to university tours, we can plan and deliver activations across the UK and Europe - including simultaneous locations.

CUSTOM BRANDING

UK & EUROPE

MULTI-SITE

YOUR BRAND. OUR HARDWARE.

Turn the vehicle into part of the campaign.

BUILT AROUND THE CAMPAIGN

Vehicles, street-food stalls and carts can all be custom branded to suit promotional events.

Pick the unit. Then pick the menu.
